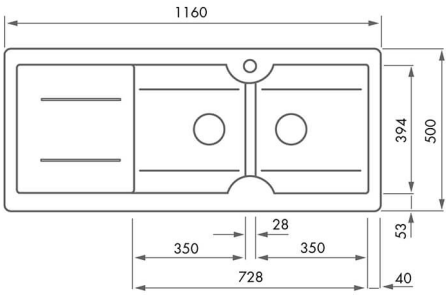
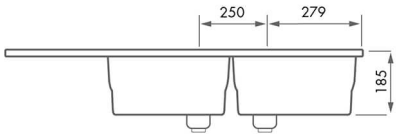
Cuisine 116 x 50 Inset / Undermount Fine Fireclay Gloss White Sink - Double Bowl and Single Drainer





Specifications

- Material: Fine Fireclay
- Finish: Gloss White
- Waste outlets included: 2 x 90x50mm Stainless Steel basket wastes
- Product weight: 38kg
- Mounting options: Inset
- Capacity per bowl: 25.5L
- Internal depth: 185mm
- Approx. external radius: R12
- Suitable for use with food waste disposer – we recommend purchase of an extended flange and a model with anti-vibration collar
- Overflow is always positioned on the side of the sink – never at the back – due to the reversible design. This is intentional and ensures compatibility whether you choose the flat or ribbed front. This is not including the Novi 75, which has the overflow on the long flat side so can only be displayed ribbed side.
- Note: Fine Fireclay is a natural product and therefore subject to variations. This should be seen as a quality that adds to its unique natural beauty. Variations +/- 2% to the specifications are common and acceptable and are within industry tolerance. We always recommend the cabinet maker and stone provider has the actual sink with them to measure before making cabinetry or cutting stone. For more information please visit our Installation Care & Warranty page or Contact Us.
